

Actually...

Actually...

..it is quite simple. It is our desire as a school to focus on three main areas: Teaching, coaching and ministry practice.

- Together with our devoted teachers, you will dig deep into the bible.
- Your personal life coach will help you make your dreams become real.
- Our challenging practices will give you the opportunity to express your potential in a practical service.

Streams

We have two streams at the college; Bible & Disciple and Theology & Leadership.

Bible & Disciple is a classic bible school year, where you dig deep into the bible. During the school year, you will get an overview and an insight on the bible, that you never had before. And no matter which of our three courses you choose, because three days of the week are the same for all courses; packed with exciting, relevant and totally life changing bible teachings.

Theology & Leadership is a leader and co-worker school, that trains young people to take responsibility and make a difference in church, society and the global village. And this goes for whether you experience a desire to lead a small group, becoming a pastor, be-coming a children, teen or youth leader, to establishing a new church or feel motivated to serve God outside the traditional ministry areas. Come and get a healthy human and theological foundation.

Major electives

If you in addition to either Bible & Disciple or Theology & Leadership wish to reach new levels in music or singing, you can choose the elective School of Worship and Music (SWM).

If children and youth ministry is just your thing, then G-Next elective is an obvious opportunity to make thought into action.

Do you love traveling? Do you have a passion to help people in need? Then the elective Mission is just the thing for you.

Spirituality is an elective focussed on contemplative spirituality.

Spirituality is on the schedule one afternoon a week. Besides from that, there will be time alone for prayer and meditation.

Do you want to learn how to use the internet as a mission fields? Do you want to use modern media to spread the Gospel while learning and adapting journalistic principals for communication? Then Web-Mission is for you.
